

# Table of Contents

Determination of barium content in pyrotechnics used for fireworks and firecrackers based on Energy Dispersive X-ray Fluorescence Spectrometry (EDXRF)	
<i>Wu Junyi</i>	1
Determination of strontium content in strontium carbonate used for fireworks and firecrackers based on Energy Dispersive X-ray Fluorescence Spectrometry (EDXRF)	
<i>Wu Junyi</i>	7
Study on the Performance of Permeable Concrete in Sponge City Construction	
<i>Ping Gan, Zhizhang Wan</i>	12
Research on the Prediction of Stock Market Based on BP Neural Network	
<i>Yaze Yuan, Mengmeng Su</i>	16
Analysis on the Construction of Book Information Management System	
<i>Xiang'ai Kong, Guimin Xia</i>	20
Optical Networking for Cloud/Grid/Data Centers	
<i>Yang Zhao</i>	24
Study on the Appearance and Shape Design of China Pavilion	
<i>Dan Chang</i>	30
Applications Research on the Cluster Analysis in Image Segmentation Algorithm	
<i>Jiangyan Sun, Huiming Su, Yuan Zhou</i>	33
Research on Decision-making of PPP Project Franchise in Large-scale Stadiums : A system dynamics application	
<i>Su Dan, Liu Yisheng</i>	37
Interaction analysis of urban space and transportation in Baoding City	
<i>Rui Wang, Jun Yin, Ning Wang</i>	46
Study on the Planning and Design of the Residential Area Road under the Influence of "Block System"	

<i>Qian Liu, Guoqing Li, Xiaokang Hu</i>	53
Study on Sponge City Planning in Central City of Tangshan	
<i>Luqi Wang, Guoqing Li, Xiaokang Hu</i>	59
Research on the development strategy of small towns around big cities	
<i>Lijie Xia, Hongwei Li</i>	66
Research on the Renewal and Development of Public Transport System in Small and Medium-sized Cities of China	
<i>Yang Liu</i>	72
The Water Scarcity: Imbalanced Supply-and-demand	
<i>Yanwan Huang</i>	76
Analysis of Shared Parking Lots Pattern	
<i>Yidan Li</i>	81
Analysis of Sharing Vehicle Infringement under the Background of Sharing of Traffic Patterns	
<i>ZhouShuChao, HuBo</i>	85
The Application Discussion on Intelligent Technology in Electric Engineering Automation Control	
<i>DaiRong</i>	90
Design of Intelligent Power Metering System with Pre-pay Based on ARM Cortex-M3	
<i>Xieqiu Zhao, Yanming Cheng, Shanjie Tang, Lanjing Gong</i>	95
Discourse Analysis of News NarrativeBased on Cognitive Model Theory	
<i>YangZhiShang</i>	100
Application of Virtualization Technology in Computer Experiments	
<i>Huiran Zhao, Lei Shi, Shujian Zhu</i>	107
Identification and Research on Seismite in Drill Cores of Gulong Sag of Songliao Basin	
<i>Jiang Shengguo</i>	112
Research on Conservation Strategy of Traditional Villages Based on Information	

Technology	
<i>Liu Han, Ai Yong, Liu Xiaohu</i>	119
Analysis on English-Chinese Existential Sentence Based on Cognitive Linguistics	
<i>Zhong Nan</i>	123
Research on Used Car Evaluation Methods Based on Performance Indicators Weighting Revising	
<i>Zhongke Xiang, Feifei Xiang</i>	128
Design of real-time T-S fuzzy controller based on DSP and its application in Brushless DC motor control	
<i>Wu Lin, Ma Xiaofeng, Shi Fuming, Zhong Xin</i>	133
Pedestrian detection via fusional convolutional features	
<i>Yang Dongming, Ge Shuiying</i>	138
Research on Optimization of Vehicle ABS System Based on Fuzzy PID Control	
<i>Tang Yan, Zhao Yupeng</i>	145
Design and Implementation of an Electric-driven Self-propelled Handling Equipment	
<i>Chi Ruijuan, Hu Tao, Li Han, Du Yuefeng, Zhang Zhen, Xie Bin</i>	151
The applications of image processing technology in the analysis of the factors of shooting rate	
<i>Wang Zhiwen, Wang Pengtao, Tang Bowen, Hu Zhenghuan</i>	160
Full-scale Measurement of Wind-field of Civil Engineering Structure	
<i>Huang Yuhao</i>	165
Manufacturing and Application of Numerical Control Equipment for Template of Nano-Carbon Granule Superhydrophobic Deposition	
<i>Guangrui Shang, Yan Li</i>	171
Aeroengine performance seeking control at Maxpower state based on Adaptive archives Management Multi-object PSO Algorithm	
<i>Feixiang Zhu, Benwei Li and hanqiang Song</i>	176
Neural Network Prediction of Stock Price Trend Based on RS with Entropy Discretization	

<i>Huang Haiqing, Gan Xusheng, Lei Lei</i>	183
Research on Aerodynamic Modeling of Elman Neural Network Based on PSO Algorithm	
<i>Gan Xusheng, Wang Minghua, Li Huaping</i>	190
WNN Learning Algorithm Based on Unscented Kalman Particle Filter	
<i>Niu Junfeng, Wu Yarong, Li Huaping</i>	197
Research on Optimization Design of WNN modeling Based on Modified AFSA	
<i>Wang Pingan, Gan Xusheng, Li Huaping</i>	204
Stock Price Trend Prediction Based on RBF Neural Network and Artificial Fish Swarm Algorithm	
<i>Wei Yanming, Gan Xusheng, Lei Lei</i>	210
