Explore the Influence of Temperature on the Operation of High Power Transmitter Based on Shangqiu Station	1
<i>Wenhao Li, Yongming Zhu</i>	
Application Research of Object-Oriented Design Technology in Interior Design Cad	7
<i>Ran Yin</i>	
Seismic Response Analysis of Indoor Engineering Structures Based on Cloud Computing	15
<i>Yuanjing Zhao, Wei Tang</i>	
Research on Learning Prediction Model Based on Optimized Rbf Network	21
<i>Li Qi</i>	
Design and Implementation of Enterprise Information Based on Vpn Technology	28
<i>Dianhua Wang, Feng Wen, Siping Hu</i>	
Studies on the Influence of Smartphone Usage on People's Lifestyle and Health	32
<i>Yanqiu Wang</i>	
Effects of Red Light Quality on Anabolism and Related Genes of Medicinal Active Components in Dendrobium Officinale Tissue Culture	36
<i>Jiangyu Guo</i>	
Discussion on Network Management and Condition-Based Maintenance of Dc Power Supply System	44
<i>Gao Yang</i>	
Reliability Analysis of Power Supply System for General Aviation Aircraft	47
<i>Mingyuan Huang</i>	
Observation on Rehabilitation Effect of Combination of Motion and Static Exercise in Bone Injury	51
<i>Qiu Zhenzhen</i>	
Big Data Secure Storage Privacy Protection Scheme Based on Homomorphic Encryption Mechanism	54
<i>Kun Qi</i>	
Research on the Creation of English-Chinese Database in the Perspective of Big Data Driven Learning	61
<i>Fei Yuan</i>	

Design of Translation Training System Supported by Artificial Intelligence	66
<i>Xia Zhang, Minghui Tong</i>	
Improved Digital Image Watermarking Algorithm Based on Dwt and Svd	71
<i>Nan Lin</i>	
Key Technology and Application Analysis of Integrated Big Data Platform of Smart Power Plant	81
<i>Changjun Yu</i>	
Design and Implementation of a New Wireless Remote Control Cipher Lock System Based on Single Chip Microcomputer	85
<i>An Sha</i>	
Application of 3d Clothing Scanning Technology in Clothing Products Product Design	94
<i>Hu Na</i>	
Research on Application of Data Encryption Technology in Computer Network Security Based on Multivariate Large Data Platform	104
<i>Jinyong Liu</i>	
Analysis of the Relation between Athletes'physical Ability and Technical and Tactical Play Based on Data Mining	108
<i>Weiyao Liu</i>	
Research on Computer Network Security and Firewall Technology Based on Large Data Analysis	112
<i>Yongtao Xuan</i>	
Research on Emergency Distribution Route Planning Based on the Ant Colony Algorithm	116
<i>Lianming Zhao</i>	
Research on Application of Firewall Technology in Computer Network Security Based on Data Mining	121
<i>Chenglong Du</i>	
Research on Construction of Accounting Information System Based on Real Model in Supply Chain Environment	126
<i>Yangyan Li, Jin Luo</i>	
Research on Application of Virtual Reality Technology in Tourism Development--Take Dangjia Village in Hancheng as an Example	132
<i>Zaosheng Ma, Yue Ju</i>	
Construction of Psychological Crisis Prevention Mechanism Based on Association Rule Mining Algorithm	137

<i>Qing Xie</i>	
Image Signal Processing Based on Image Sensing Technology	143
<i>Bihong Lin, Xuelan Feng</i>	
Research on the Establishment of Digital Media Content Management System Based on Core Competence	147
<i>Guixia Zhang, Yan Zhao</i>	
Research on Virtual Reality Roaming System Based on Artificial Intelligence Technology	153
<i>Yan Zhao, Guixia Zhang, Shufang Zhang</i>	
Numerical Method for Differential Algebraic Equations of Multibody System Dynamics Based on Geometric Intuition	159
<i>Xiaodong Li</i>	
Investigation and Exploration on the Use of Invoice Reimbursement System under the Background of Internet + Era	164
<i>Gao Feiyang, Xie Yonghao</i>	
Design and Implementation of Intrusion Detection System Based on Data Mining Technology	169
<i>Li Xin</i>	
Security of Accounting Information Based on Computer Network Technology	173
<i>Sun Fei, Li Haoyang, Chen Wenjing</i>	
Statistical Evaluation of Dissolution of Solid Pharmaceutical Preparations in Vitro	178
<i>Wu Yunjie, Xu Ke</i>	
The Application of Virtual Reality and Simulation Technology in Design	183
<i>Xiao Youmin</i>	
Analysis of Computer Network Security and Countermeasures Based on Big Data	188
<i>Jiang Baohua, Sun Hui</i>	
Equalization Algorithm of Lithium Battery Management System Based on Outlier Detection	192
<i>Song Jialong, Guo Xiufen, Liao Zhiliang</i>	
Wireless Sensor Communication Link Optimization Based on Quantitative Analysis of Cloud Computing	197
<i>Wang Suling</i>	
Sports Video Moving Target Detection and Tracking Based on Improved Gaussian Mixture Model	202
<i>Xuming Xiao</i>	

Application of Big Data in Smart City Research and Planning	207
<i>Yongyan Guo</i>	
The Analysis of Big Data Distributed Processing Technology Based on Blockchain	212
<i>Shuiquan Guo</i>	
Visualized Analysis of Web of Science Documents on General Practice Based on Citespace	218
<i>Jian Huang, Dongling Liang and Zhongheng Wei</i>	
Simulation Optimization of the Painting Production Line Based on Plant Simulation	225
<i>Jidong Teng, Yongcan Piao, Dawei Huang, Wei Ai, and Yu Huang</i>	
Analysis on the Design of Computer Software User Interface	234
<i>Hongmei Wang</i>	
Research on the Sharing Platform of Residents' Electronic Health Records from the Perspective of "Internet + Residents' Health"	239
<i>Qian Yang</i>	
Application Analysis of Electric Automation Technology in Power Dispatching	244
<i>Zhuohong Liu</i>	
The Voice Awakening Souls-Application and Practice of Vocal Psychotherapy	249
<i>Xinyu He</i>	
Application Strategy of Electrical Automation Technology in Power System Operation	254

Investigation on Quality of Life of Patients with Diabetes Mellitus in Community and Research on Nursing of Traditional Chinese Medicine	348
<i>Wang Zhenzhen</i>	
Investigation on the Debility of Diabetes Patients in Community and Research on	353

Nursing of Traditional Chinese Medicine

Wang Zhenzhen

Research on Emotional Disorders of Community Diabetes Patients and Nursing Intervention of Traditional Chinese Medicine 358

Wang Zhenzhen

Research on Design of Distributed Storage Architecture for Regional Medical Images Based on Network Environment 364

Xiaojie Wei, Xueling Wu, Huafeng Li

Research on Design of Medical Image Quality Control System Based on Cloud Computing 370

Huafeng Li, Xiaojie Wei

Research on Electrical Control System of Nc Machine Tool Based on Vector Control 376

Li Nan

Application of Computer Image Recognition Technology and Analysis of Details 381

Zhang Hongtao

Analysis of Computer Application under Network Information Security Technology Management 386

Zhang Hongtao

The Effect of Continuous Nursing on Pain and Rehabilitation Compliance of Patients with Rheumatoid Arthritis with Osteoporosis 394

Sui Xiaojia, Ma Shu

Study on the Effect of Nursing Intervention in Acute Gout Arthritis 399

Sun Lixue, Sun Xinhui, Chen Yangyang, Ma Shu

Effect of Quality Nursing Intervention on Atomization Inhalation Safety and Compliance in Children 403

Wang Haijuan, Chang Yanfen, Li Xiaoqing, Li Deli

Study on the Influence of Adult Attachment on Pregnant Woman's Intention of Cesarean Section 407

Linlin Sun, Li Zhang, Qian Wang, Zhiyu Xi

Exploration on the Effects of the Quality of Life of Patients with Dvt of Lower Limbs Based on Linkage Prevention and Nursing 411

Zhiyu Xi, Yingli Sha, Linlin Sun

Application Analysis of Nursing Risk Management in Nursing Management of Rheumatic Immune System Diseases 415

Zhang Xiaohua, Han Tong, Wang Lu, Ma Shu

Research on Integrated Development of Wisdom Application System in Zhejiang Dawan District	419
<i>Jiangjian Xiao, Gen Xu, Ju Wang, Gang Xu</i>	
Research on Software Evolution Analysis Method Based on Fuzzy Concept Lattice and Code Analysis	426
<i>Zhao Li, He Rong</i>	
Analysis of the Effect of the Application of the Concept of Rapid Rehabilitation in Perioperative Patients of Hepatobiliary Surgery	430
<i>Lanlan Wu</i>	
Data Security Analysis in Cloud Computing Environment	435
<i>Zhang Yilin, Gui Xiaolin, Gong Jun, You Zhen, Cheng Si</i>	
Research on Artificial Intelligence Technology for Internet of Things Application	439
<i>Yang Jing</i>	
Analysis of Vitamin D Supplementation's Improvement for the Symptoms of Parkinson's Disease	444
<i>Qiu Fucheng, Kong Xiangzeng</i>	
Analysis on the Physical Health and Promotion of Adolescents from the Perspective of Healthy China	449
<i>Zhong Jingshun</i>	
Simulation Research on Iterative Detection of Abnormal Attack Characteristics in Optical Fiber Communication Network	453
<i>Fan Yu</i>	
Progress in the Curative Effect of Primary Herpes Simplex Virus Keratitis with Chinese and Western Medicine	458
<i>Zhao Xue, Chu Yuhua, Yang Beibei, Liu Lei, Cui Yamin, Gao Zhanling</i>	
Analysis of Electric Hybrid Control Method of Manipulator in Assembly Line Based on Plc	463
<i>Cai Jifeng</i>	
Task Scheduling Method Based on Dynamic Queue and Hybrid Meta Heuristic Algorithm in Cloud Computing Environment	467
<i>He Fang</i>	
Research on Ciphertext Query Method of Searchable Encrypted Database Based on Cloud Computing	471
<i>Chen Mingdong</i>	
Analysis of Consumption Behavior of Campus Cards Based on Python	475

Chongli Zhong, Zhenyu Cao, Xiaolong Bai

Research on Data Mining and Knowledge Discovery of Computer Aided Medical Diagnostic System 483

Yang Hong, Ye Donghai, Lv Feng

Distribution Characteristics and Related Factors of Helicobacter Pylori in Patients with Peptic Ulcer 487

Zhang Hui

Simulation Research on Optimized Recognition of Arm Movement Trajectory in Golf Training 491

Zhu Sanqiang

The Estimation of Digital Adaptive Carrier Phase in Multi-Level Phase-Shift Keying Coherent Optical Communication Systems 495

Wang Lei

Application Model for the Internet of Things in Government Statistics 499

Lianli Guo

Risk Evaluation Method of Transmission Corridor Based on Panoramic Monitoring 506

Wang Yi, Que Bo, Jiang Wendong, Zhang Wancai

Millimeter Wave Massive MIMO Array Design for 5G 516

Xingqing Li

Optimization Design of Ship Rudder Steering Stability Optimization Control System 520

Zhang Dousheng

Efficient Calculation of Matrix Exponential Function and Vector Product 524

Zhu Chaowu

Fault Analysis and Treatment of Air Conditioning System in Hospital Clean Operating Room 529

Cui Jie

The Study on Block Compound Matrix Inclusion Region of Inhomogeneous Block Eigenvalue under Bipartition 533

Hou Fangbo

Multiplicative Model and Filtering of Speckle Image in Lidar System 540

Sun Dan, Zhou Zhimin

Design and Simulation of Construction Machinery System Based on Fuzzy PID Control 544

Tian Qiaoyu

Research on Optimization Strategy of Power Communication Network for Load 549

Balancing

Chen Shenghai, Jiang Fengying, Mi Xianwu

Research on Commodity Recommendation Algorithm Based on Collaborative Filtering 553

Tong Haifeng, Zhang Chengnian, Hu Jianfeng

An Autonomous Protection Algorithm for Android Malware Attacks Based on Multiple Features 558

Zhu Xiaojing

Research on Permanent Magnet Synchronous Motor Driven h-Platform Cross-Coupling Synchronous Controller 562

Chen Lin, Li Yufen, Ma Hongzhong

Discussion on the Development and Application of Computer Software Technology in the Age of Big Data 566

Wang Mei

Research on Consumer Information Security Prevention in Express Industry Based on Big Data Analysis 570

Bai He

Application of High Density Electrical Method Based on Numerical Simulation in Hydrogeology and Engineering Geology 576

Li Songfeng

Research on Scheme Selection of Large Screen Display System in Traffic Emergency Monitoring Center Based on Cloud Service 582

Sun Qilin

Research on Computer Network Information, Network Security and Protection Strategies Based on Big Data Mining 588

Qiang Mei

Experimental Study on Active Vibration Control of Large Flexible Structures Based on Neural Network 594

Hongbin Yang, Huixia Ding

Factors Affecting Endometrial Receptivity during Embryo Implantation 599

Shihan Wang

Research on Design and Implementation of Chemical Automatic Storage Logistics Management System Based on Supply Chain Perspective 602

Zhang Shuai

Research on Visual Image Generation Based on Network Media and Its Influence on Communication 608

Gou Shuangxiao

Research on Anti-Jamming Technology of Ultrashort Wave Radio Communication Based on Working Process 613

Liyan Li, Yunxing Wang

Double Motor Rear Wheel Independent Driving Vehicle Control System 618

Ji Peng, Zhang Tao

Research on Image Registration Based on Traffic Accident Scene 622

Yan Yang, Shaoheng Jiang, Yaping Zhou, Bin Liu, Hanbin Chen, Zheng Wu, Yangdong Liu

Research on the Relationship between Engineering Ceramics Surface Roughness and Image Texture Features Based on Machine Learning 627

Nie Yu, Li Chao, He Fubao, Hu Kaihua

The Motion of Binary Stars in System and Interference of Gravitational (Continuous) 634

Poshan He

The Impact on Work Engagement Based on Self Restraint 639

Yanwen Luo

Design and Discussion of High Power t/r Module Based on Gan 643

Peng Xiangfei, Yang Rong

Analysis of Coordinated System Prediction System Based on Least Square Support Vector Machine 648

Jianhua Zhang, Xiang Ji, Fuhao Ma

Statistical Analysis of Failure Causes of Medical Electronic Instruments Based on High Performance Processors 652

Xiao Ning, Zhong Jiahong

Research on Interference and Noise Prevention in Medical Electronic Instruments Based on Virtual Instruments 658

Zhong Jiahong, Xiao Ning

Effect of Rhtgf-B1 on Osteogenic Differentiation of Sd Rat Mscs and Its Mechanism 664

Mengting He

Electrical Control Strategy for Traction System of Metro Vehicle 668

Xi Yongming

Research on Network Security System Detection Based on Mysql 674

Haifeng Fan

Research on Police Weapon Virtual Simulation Training System 679
