

Table of Contents

Research on ecological and environmental protection planning based on SWOT analysis	1
<i>Su Yan, Yang Hongyan</i>	
Application of Immobilized Photosynthetic Bacteria in Comprehensive Water Pollution Control	5
<i>Jie Luo</i>	
Analysis on Design Risk Factors of Water Structure Engineering	9
<i>Nguyen Hung Nguyen</i>	
Reliability Analysis of Cold-Wave Resistance Connectivity of Underground Municipal Water Supply Networks	13
<i>Song Taiquan</i>	
Analysis of Construction Temperature Stress of Civil Engineering Building Concrete and Thinking of Maintenance	17
<i>Bing Liu</i>	
Analysis of Landscape Adaptation and Renovation Methods for Existing Residential Areas	20
<i>Tingting Wang, Qian Huang, Hesong Wang, Renjie Liu</i>	
Analysis on Construction Technology of Super-Thin Asphalt Concrete Deck Paving	25
<i>Qiuyun Wang</i>	
Research on Construction Management Strategy of Civil Engineering Based on Modern Concept	28
<i>Minghong Cai, Jiaji Li</i>	
Discussion on Crack Resistance Technology Based on Long-Span Box Beam	33
<i>Yujie Chen</i>	
Influence Factors of the Cost of Municipal Projects and Countermeasures to Reduce the Cost of the Project	37
<i>Miao Zhang</i>	
Analysis of Scientific Problems and Technical Approaches to Sustainable Civil Engineering Structures	42
<i>Feng Yong</i>	
Internet Thinking and Spatial Pattern Analysis and Landscape Design of Ancient City	47
<i>Na Liu</i>	

The Cultural Representation of Huizhou Merchants in the Architectural Art of Xidi Village, Huizhou	54
<i>Tang Xiaoyan</i>	
Application of Pipe Jacking Construction Technology in Municipal Engineering Construction	62
<i>Fu Jingjing</i>	
Early Water Conservancy Project and Chinese Culture in Ancient China: the Cases of Liangzhu Water Conservancy Project and Dujiangyan Irrigation System	67
<i>Wenqiang Liu, Ting He</i>	
Quantitative Evaluation of the Degree of Functional Damage of Dalinuoer Lake	73
<i>Weigang Hao, Yongfu Wei, Quan Liu, Ji Ma, Zilong Liao, Xiaomin Xu, and Liping Cui</i>	
Study on Groundwater Occurrence in Southern Margin of Tarim Basin, Xinjiang	78
<i>Fei Xie, Fachen Zeng, Hongwei Ma, Xiuna Jiang, Zhipeng Duan</i>	
Reliability Analysis and Evaluation of Existing Concrete Bridge under Vehicle Load	83
<i>Zhe Gao, Qingbing Li, Yao Feng, Xiaoyan Yang, Chuang Chen</i>	
Study on the Measurement of Climate Capacity and Its Health Effects in Xi'an City	89
<i>Li Peng</i>	
Using Geographically Weighted Regression Kriging for Soil Organic Matter Mapping in Red Soil Region of Southern China	97
<i>Siming Chen, Ning Wang</i>	
Discussion on Construction Technology of Mass Concrete in Super High-rise Building	103
<i>Honghong Wang</i>	
Analysis of Construction Technical Points of Mass Concrete Structure in Architectural Engineering	108
<i>Lin Hui, and Zhang Yufeng</i>	
Research of Highway Engineering Construction Site Management and Optimization Measures	113
<i>Hui Lin, Yufeng Zhang, and Ju Zhao</i>	
Risk Identification of Urban Rail Transit Engineering Construction	117
<i>Bo Su</i>	
Study on Environment-Friendly and Flame Retardant Asphalt Concrete	121
<i>Peng Weng</i>	
Surveying And Mapping of the Richardson Hall in Shanghai No.3 Girls' High School	125
<i>Qianyun Lyu, Qiawang Zhao</i>	
Exploring Effective Paths for Reasonably Using Bim Technology to Improve Bridge Construction Quality	133
<i>Wenyu Xu</i>
