Table of Contents

Research on the Body Mutation and Consciousness Evolution of Intelligent Robots in Science Fiction Movies **1**

Yongping Fu

Research on Operation Safety Evaluation for Terminal Area Airspace System Based on Set Pair Analysis Method **6**

Qian Wang, Pingni Liu, Runze Guo, Xiangwei Meng

Solving the Dynamic Programming Problem for Training Airspace Based on Modified PSO algorithm **11**

Yanming Wei, Xusheng Gan, Rui Yang, Jingjuan Sun

Training Airspace Dynamic Programming in Stages Using Improved Particle Swarm Optimization **16**

Haiqing Huang, Yarong Wu, Xu Yao, Shuangyan Chen

Application of wireless sensor network based on blockchain architecture technology in action capture **21**

Jingyang Cao, Shirong Yin, Tianhong Luo

Introduction to the Predictive Policing of the United States and its Enlightenment to China **27**

Jiapeng Song, Lingyu Nie

Rotor Position Detection and Driving Control Strategy of Permanent Magnet Synchronous Motor for Electric Vehicle **33**

Xing Cai, Jing Cai

Research on Interactive Teaching Model of English Reading Based on Multi-modality **37**

Chen Yonglin

Application of Intelligent Technology in Power System Automation **41**

Junhua Li, Dongwen Yan

Prediction of Pollution Flashover Voltage of Insulators Based on Genetic Algorithm **46**

Haiyu Zhao

Research on Parallel Acceleration of Chebyshev Approximation based on Neural Network **54**

Wang Xiangchun, Chen Zijian, Wang Bingchao

Ship Motion Parameters Estimation and Refocusing Method with Geosynchronous Synthetic Aperture Radar Image Sequences **61**

Chao Dai, Qingjun Zhang, Baoguo Yan, Zhiyong Suo, Bin Cai

Design of High Precision pH Meter Based on STM32 **70**

Xudong Cheng, Chaofan Li, Qingan Ding, Lei Yan, Xiaojuan Wang, Lijun Zhang, Zhenfei Dai and Junkai Li

Research on Optimization of Web Vulnerability Automatic Detection Technology Based on Semantic Recognition **75**

Yonggang Li, Min Han, Aiyi Cao, Shanmin Pan

Research on Web Application Vulnerability Scanning Technology Based on Active and Passive Combination **84**

Yonggang Li, Min Han, Aiyi Cao, Shanmin Pan

The Internet of Things: A Survey **92**

Jing Zhang

An Analysis of the teaching of "Shui Long Yin deng Jiankang Pavilion" **97**

Zhu Lili

Problems and Countermeasures in the Training of Vocational Education Teachers in E-Commerce **101**

Mingjun Chen

Research on Mode of China-Philippines Higher Education Cooperation under the Belt and Road Initiative **107**

Qiuping Huang

Safety Analysis of Process of Regenerative Thermal Oxidizer for Treatment of Industrial Organic Waste Gas **112**

Lv Ying, Jiang Jun, Wang Xiaoming

Fire Risk Analysis for Urban Traffic Link Tunnel **122**

Yao Xiaolin

A unified management platform for the entire network traffic of the power integrated data network based on cloud technology **126**

Lin Yun, Guiqian Fu, Qian Wang, Yunxuan Lin, Meiqin Huang

Prim’s Algorithm for minimum spanning tree **135**

Chao Yuan and Haofei Zhang

Research on Fault Analysis Technology of Hydraulic Generator Set **140**

Yuanbo Wang, Ziyu Qu, Wentao Mao

Research on Weak-Light Phase Locking **145**

Shaokun Liu, Xingwang Zhong

Improved Deep Neural Network for Automatic Staging Applied to Assisted Sleep System **149**

Meng Lu, Jiawen Chen, Shengpeng Shi and Zhenyu Zhu

Research on Parameterization of spacecraft trajectory collision probability based on Covariance Analysis **156**

Shan Xiao, Zhexin Jiang, Xuan Ding

Lithography-free surface enhanced nonlinear absorption of chalcogenide film **162**

Jianxing Zhao and Jianhong Zhou
