Table of Contents

Artificial Intelligence based Embodied Narrative Learning Design for E-sports **1**

Haiting Cui

A School-based Empirical Study on Blended Teaching Mode of College English in Agricultural Universities **7**

Hongcai Yan, Yinqiu Song, Yunying Han

Research on CEFR and Application in Business English Assessment **13**

Zhanglong Mao

The Realistic Dilemma and Path Choice of Cultural and Creative Development on College Campus **19**

Weizhi Yang

Exploration of Online-Offline Flipped Classroom Teaching Mode: An Example of Medical Imaging **25**

Chenyang Shen, Jun Liu, Yinsu Zhu, Feiyun Wu

Wieland: A Turn-of-the-Century American Allegory **30**

Lu Jin

Development and promotion of Chinese excellent traditional cultural creative products **36**

Wenmiao Gao

Research on actively responding to population aging under the Rural Revitalization Strategy—Based on the ethnographical investigation of X Town in J City **40**

Zhiguang Wang, Qiong Wu, Yun Jiang, Ying Gao, Tangsheng Wang

An Exploration on the Cultivation of College Students' Critical thinking Ability in English Academic Writing **47**

Yanyu Zhang

Innovative design exploration of building information model based on Revit and VR technology **54**

Xiye Ma, Xin Mou, Haichen Zheng

Exploration and practice of "Engineering drawing" teaching reform based on the improvement of students' innovative ability **61**

Haichen Zheng, Xin Mou

66

Research on the development status and countermeasures of rural home-stays in Jilin Province under the background of rural revitalization

Jin Chen

Single Electrode Sole Triboelectric Nanogenerator for Human Motion Energy Harvesting **71**

Zhuanqing Yang, Di'en Xiong, Haojie Hu, Yang Yang, Huangyu Zhou, Fanghao Ning

Exploration of the Teaching Mode under the Background of Production and Education Integration **78**

Qiuxiang Chang, Jinyun Xiong

ESG Performance and Technological Innovation of Textile Listed Companies under China's Carbon Peaking and Carbon Neutrality Goals **82**

Sunlei Yang, Shaoyou Yu, Huimin Lu

Study on Graphic Symbolic Context in Art Education for Special Groups **89**

Xiaoting Pang

Exploration of the implementation path of Specialty diagnosis reform in higher vocational colleges **96**

Wei Wang, Ling Zhang, Rurong Wang

Construction of University Innovation and Entrepreneurship Education System from the Perspective of AI **101**

Shu Wang

Measures to Solve the Problems of Online Self-evaluation of College Students' Ideological and Political Courses **106**

Guohong Wang, Yuchuan Pan, Zengzheng Qiao

Reflections on Integration of Ideological and Political Education in College English Curriculum **112**

Lingli Geng

Research on the Integration of Huang Yanpei's Vocational Education Ideology into Higher Vocational Physical Education Curriculum **117**

Chao Huang, Ming Zeng

A Study on the Educational Thought of Liang Qichao and its Inspirations for Moral Education in Higher Education **124**

Chunyue Deng, Yujia Deng

Teaching Practice and Exploration of New Media Operation Course Based on Hybrid Model **128**

Youbang Su, Haitao Zhu, Xiaoli Lan, Hua Wang, Qingsong Zhou

A study on personality psychology test and exercise intervention of Li and Han high school students from the perspective of social environment adaptation **133**

Xiaohui Zhu, Yi Jiang, Xiangdong Ye, Fei Wang, Wenting Hao

Research on the Development of Smart Agriculture of China **137**

Wanxin Zhao, Wen Bao

Research on Online and Offline Integrated Learning for Marketing Course **142**

Wen Bao, Lihong Wang

The Implementation Path of "1+x" Certificate System Based on the Integration of Industry and Education **147**

Rui Shi

The Innovative Path of Ice and Snow Sports Teaching in Local Colleges and Universities—Taking Jilin Province as an Example **153**

Pengyu Zhao

Analysis and Research on University Information Technology Course Examination Based on Different Majors **160**

Yan Jiang, Jingyun Zhang

Exploration of Smart Classroom Teaching Based on the OBE Concept—Taking University Information Technology Courses as an Example **165**

Jingyun Zhang, Yan Jiang

Reform and Practice of Teaching Automatic Control System of Electric Drive under the Background of Engineering Education Certification **172**

Xiaofeng Yao, Xu Xue, Lin Wang
