

Table of Contents

Research on Lake Surface Cleaning Boat System Based on Intelligent Perception and Execution	1
<i>Shaoshan Guo, Yunqian Huang, Jiaxin Zhang</i>	
Research on Aircraft Engine Fault Diagnosis Based on CNN-BiGRU-Attention Model	9
<i>Chenfeng Jin, Jie Bai</i>	
Optimization design and temperature field analysis of electromagnetic suspension linear motor based on transient magnetothermal coupling analysis	20
<i>Yu Fu, Kunyang Zeng</i>	
Review of SOC Estimation and Error Source Analysis for Electric Vehicle Lithium-Ion Batteries Based on KF Family Algorithms	31
<i>Shao Zijian</i>	
Application of intelligent microfluidic platform in synthesis and screening of high-throughput PI3K inhibitors	43
<i>Fanzhi Wei</i>	
Research on the Construction of Digital Logistics Platform for Multimodal Transport	49
<i>Li Tailin, Han Yiyong, Su Ting, Liang Hui, Wen Quan</i>	
Applications and Challenges of Neural Network Ontology Model	57
<i>Haiyang Dong</i>	
Signal recognition and prediction based on deep learning models	75
<i>Zhixuan Tian, Baorui Dong</i>	
Construction of an interpretable analysis model for oilfield production based on the improved IPSO-RF algorithm	81
<i>Mengsha Qu</i>	
Research on underwater vehicle positioning and search and rescue model based on PSO algorithm	90
<i>Ziyue Zhang, Yujing Sun, Jiayun Chen</i>	
Level of Agreement of Damped Harmonic Oscillator Model with the Experimental Pendulum Setup	100
<i>Anqi Gao</i>	

PID Control Parameters Tuning Method of the Permanent Magnet Synchronous Motor Based on RBF Neural Network	114
<i>Haoqiang Qin, Yongsheng Jiao, Zihang Wang</i>	
Research on the Impact of Photovoltaic Panel Tilt Angle on Solar Direct Radiation Based on Astronomical Algorithms	125
<i>Junhao Guo</i>	
Research on Short term Wind Power Prediction Based on BPNN	133
<i>Zhe Yan, Liang Xu, Mengfang Yuan, Junfeng Guo</i>	
Optimization and Application of SAR Image Registration Algorithm Based on Machine Learning	144
<i>Liyu Yan, Qianyan Meng</i>	
Research on the Application Strategy of Internet of Things Technology in Building Fire Prevention and Control	149
<i>Jie Zhang, Lele Yao</i>	
Research on Optimized Design and Production Process of Prefabricated Components in Assembled Buildings	154
<i>Guanhua Ma, Fan Yin</i>	
Research on the optimisation of motor circuit design in automated single-chip microcomputer systems	161
<i>Xiangyun Cai, Ziyao Zheng</i>	
The Mechanism of the Impact of Microplastic Pollution on Aquatic Ecosystems	168
<i>Jingjing Kong, Tingting Gao, Qu Chen, Jingjing Zhang, Wenqian Qi, Zhifei Wang</i>	
Present Situation and Development Trend of Fault Diagnosis Technology for Marine Diesel Engine	174
<i>Zhiqiang Zhao, Kang Hao, Ran Ji</i>
