Keywords: Party building work in colleges and universities, Strengthen moral education and cultivate people, Path, Analysis.

Abstract: With the continuous development of Chinese society, China officially promoted the decision to develop education to the whole country, and Lideshu people as the basic project of party building work in various universities across the country, each university must accurately build the party building in the current society. Ideological education of work and the party’s ideological policies and values are not effectively mastered. Based on this, this paper expounds how to better integrate the party building work of colleges and universities with the “strengthen moral education and cultivate people”, and conduct research and analysis from the current situation in China, and further put forward the integration of party building work in China's colleges and universities, the “strengthen moral education and cultivate people”.

1. Research Background

1.1 Literature review

In the 19th National Congress of the Party, the requirements for party building in the new era were put forward. Party building work in colleges and universities, as one of the main components of the party's new construction projects, must meet the requirements of current social development (Qin et al., 2018). Under the strong guidance of the concept of strengthen moral education and cultivate people, the party building work in colleges and universities should make the party building work of colleges and universities develop effectively through effective channels such as improving clear responsibilities, improving assessment and improving assessment (Huang et al., 2015). In the economic and social development, the party building work of colleges and universities is faced with many problems at the same time, which requires the study of party building work in colleges and universities to explore new ways to improve college construction (Tang et al., 2016). General Secretary Xi Jinping emphasized that to “implement the party's management of the party and strictly manage the party's policy, it is necessary to do a solid job of grasping the grassroots and laying the foundation, and to make all grassroots party organizations become the strongest battle fortress.” As a party committee of colleges and universities, it is necessary to regard strengthen moral education and cultivate people as the most important task and establish a standardization system for party building work. Taking “social management and co-management” as the basic path, we will integrate education with “the construction of teachers' morality” as the main path (Xu, 2014). As the basic task of party building work in colleges and universities, Lideshu people must have a deep discussion on strengthening team building, establishing new ideas and innovative work (Zhang, 2018). The current party building work in colleges and universities and Lideshu people are effective ways for the rapid development of colleges and universities (Geng et al., 2015). Therefore, the party building work in colleges and universities must be based on the virtues of the people, so as to better promote the development of college education (Ruan, 2018). In the development of society, it is necessary to discuss in depth the current party building work in the university and the “Lide-de-tree people” can be more effective integration path (Huang et al., 2015).

1.2 Research purposes

With the continuous development of economy and society and the values of socialist ideology with Chinese characteristics, the combination of party building work in various universities in China and the “Strengthen moral education and cultivate people” has become one of the important factors for China's development. There are many problems in the combination of Deshu people. Based on this, this thesis studies the party building work in China's colleges and universities and the integration of “Lideshuren” with the practice and theory as the starting point, and puts forward the party building work and “establishment” in colleges and universities. The improved strategy of the integration of Deshu people provides reference and reference for the combination of party building work in colleges and universities.

2. Overview of Related Theories

2.1 The party building thought in the new era background

The party building ideology is the most important guiding ideology for the party in its construction. It is not without change, but with the continuous development of society and the actual requirements of the party building process, party building thinking is always in the process of reform, development and innovation. The development of the cause in China is inseparable from the work of party building. Party building thought is a product of the times. It can not only objectively reflect the times, but also objectively reflect history. At the moment, China has entered a new era of socialism with Chinese characteristics led by President Xi Jinping. In this new era, party building work must re-clarify its own system and focus, so as to develop the party's development direction and goals in construction. Make effective progress. In the process of rapid social development, China successfully transformed the industrialized era into an information age, which means that the party building thought has been effectively reformed and upgraded, and Xi Jinping's party thought is a new era in different historical directions. . Combining the current Chinese party conditions, national conditions and social needs, the party building ideology will be re-established, so that the party building can be effectively promoted in the new era and actively challenge new topics in the new era, so that it can be effective. We will formulate a new strategy suitable for party building in the new era and actively establish a new height and pattern of socialism with Chinese characteristics.

2.2 College party established the work of deshu people

The Lideshu people are composed of two groups of words: “Lide” and “Tree Man”, and “Lide” is placed in the first place to emphasize the importance of party building in colleges and universities. The term “Lead” mainly emphasizes the importance of virtue as it relates to skills and knowledge. The word “tree people” mainly emphasizes the thoughts and concepts that have to be learned in a lifetime. As the society continues to develop at the moment, the various skills and rich knowledge that people possess should advance with the advancement of society, and at the same time, the creative ability and the spirit of innovation must be given together. Therefore, in order to make more developments in today's society, we should pay high attention to the education and learning activities of the Lideshu people. The meaning of the “strengthen moral education and cultivate people” is to say that the current self-cultivation and moral cultivation, for future reference. At the same time of self-cultivation, it also makes the latter people have a good reference in learning and education. In the new era, Lideshu people can better conform to the historical mission and practical significance of the present. The current “people” in the country and society are all-round compound talents, and they have similarities in the concept of ideas and the socialist core values advocated by China. They have good social merit, personal morality and health. Ideal concept. At the same time, in the professional aspect, it also has high professional skills and excellent knowledge of professional knowledge. First, the Lideshu people need the party building work in colleges and universities and the teachers to seriously implement the professional ethics of the teacher industry. Second, Liede people need college building work and teachers must always adhere to moral education as the first, so that students have better development. Third, the Lideshu people need the

party building work in colleges and universities and the teachers must effectively train the students' healthy personality for a long time.

3. An Analysis of the Relationship between the Party Building Work in Colleges and Universities and the “Strengthen Moral Education and Cultivate People”

Colleges and universities are the objects that society needs to reform in its transformation and development, and the party building work in colleges must be reformed with the concept of party building. The funny party building work does not have a strict implementation standard, and there is no solid task. The party building idea can be better implemented, and the impact on colleges and universities is very huge. And whether the teachers and leading cadres in the party building work in colleges and universities are implemented in accordance with the requirements of China's special socialist education for various colleges and universities, so that the work of the ethical people in every aspect of the school, the cultural development and social development of the country and the party as well as Economic development plays an important role. Through the educational experience of the past, it is concluded that without the party's ideological leadership in China's higher education, the purpose of the educational cause and the initial heart will be lost, which will lead to a better way to better carry out the socialist successor and socialist construction. Good culture. This will make China and the development of society have no way to develop efficiently. Party construction work, teachers and leading cadres in colleges and universities must take students as the center, and then take the “Lide-de-tree” as the foundation of the task, pay attention to the improvement of ideological and political education of college students, and pay attention to the effective development of the health of college students. Students' cultural quality and moral quality are effectively cultivated. Party construction work and teachers and leading cadres in colleges and universities should better serve college students, so that college students can develop talents with morality, intelligence, beauty and labor, so as to conform to the society in the new era and the complex type in the development of China. Talent.

In the ideological and political work of colleges and universities in the new era, each requirement depends on the important decision of social education as the development direction of college education. It is necessary to take socialist successors and socialist builders into values, moral culture and outlook on life. Guided by all aspects of the pace, so colleges and universities should be based on “Lideshu people”, and adhere to the further development of party building in colleges and universities, train students into a society and the complex talents that China needs, and establish universities into world-famous universities. To improve the influence, education and education status of Chinese education in world education. Enhance China's core competitiveness in the world.

In the context of the new era, the educational work of China's education industry to carry out the concept of “strengthen moral education and cultivate people” will become a topic that universities must face. Establishing education in colleges and universities is an important mission of party building in colleges and universities. It should always maintain the cultural literacy and the promotion of education for everyone. To take the socialist ideology with Chinese characteristics advocated by Xi Jinping as the main purpose, to establish a new way of thinking in this aspect of colleges and universities, it is necessary to improve the political quality, ideology, culture and moral quality of college students as the basic task. Strengthen moral education and cultivate people has been the target of Chinese citizens' lifelong education and lifelong learning. In accordance with China's party building ideological work, the party building work in colleges and universities has been established into a new situation under the vision of the new era, and a new atmosphere of establishing a neutral school tree in colleges and universities.

4. The Realization Path of the Integration of Party Building Work in Colleges and Universities and the Establishment of “Strengthen Moral Education and Cultivate People”

4.1 Establishing a guarantee mechanism for party building work in colleges and universities to ensure the effective implementation of strengthen moral education and cultivate people education

First, organizational security must be improved. All private colleges and universities need to

improve their organizational settings, make effective selection and coordination of the party organization team, and hire one party secretary for each second-level party committee to be responsible for the management of party building in colleges and universities. Second, the conditional guarantees will be effectively strengthened. Each private school must, in accordance with its duties and tasks, provide effective guarantees for the improvement of the party building work in colleges and universities in terms of information technology. Third, the incentive mechanism will be effectively improved. It is necessary to improve the spiritual incentive mechanism and the material incentive mechanism, and effectively inspire the enthusiasm of the work and the research spirit of each party, such as party workers and experts and theoretical teachers in colleges and universities, in order to improve the scientific level of party building work in colleges and universities. Provide support and services for the effective implementation of the strengthen moral education and cultivate people mission.

4.2 Expand the carrier of party building work in colleges and universities and build a new platform for education of “strengthen moral education and cultivate people”

The work of party building in colleges and universities is generally not paid attention to by private colleges, which leads to the party building work in colleges and universities still in the traditional education mode. The opening of WeChat and Weibo platform is relatively less for the purpose of student party building. The public opinion of the campus network is not effectively mastered, and the fun and attractiveness of organizing life is rare. Private colleges and universities need to effectively expand the work of party building for college students, and establish a new platform for education, not only by broadcasting and websites, but also by propaganda columns, but also by taking advantage of new media, on the WeChat public platform of colleges and universities. The party building propaganda micro-publication will be promoted, so that the teachers and party members of the university will effectively strengthen the moral education and thoughts without being affected by the location and time, so that the party members of the university can quickly implement the “Lide” education.

4.3 Establishing the standard of “cultivating people” and strengthening the party-building of the people in colleges and universities

In the “Opinions of the Ministry of Education on Comprehensively Deepening the Reform of Curriculum Implementation and Implementing the Fundamental Tasks of strengthen moral education and cultivate people”, it is pointed out that it is necessary to study and formulate the student's academic quality standards and the core literacy system for student development. Determine the ability and quality of college students to have social development and lifelong development, and show the country's feelings and personal accomplishment and caring for the society. The “Student Development Core Literacy System” was first proposed by China. Private colleges and universities should be based on the “Student Development Core Literacy System” advocated by the Ministry of Education of China and the characteristics of students, and should be oriented to the Lideshu people, and explore and formulate the system of personal literacy for the students of private colleges and universities, so that the party members can The selection of party members can quickly and effectively reflect the needs of the people of Lide, and put the “entry barrier” effectively.

4.4 Strengthen leadership and effectively implement the consciousness of “lideshuren”

The integration of party building work in colleges and universities and the “strengthen moral education and cultivate people” must be clear to the presidents of universities and the private board of directors. “Lidede Shuren” must pay attention to the decision-makers from universities and strengthen the efforts to establish all the party committees. Leadership, the party and government management, the functional departments and the teaching colleges and other aspects of the party building work of college students. It is necessary to combine with the work responsibilities of the second-level party committees, determine the work direction and work tasks of the second-level party committees, and make a specific and detailed list of the tasks and work of the Liede people,

and determine how the grassroots party committees Tree people “how to do it” and “what to do” and other related issues. The party committee of a private college must make guidance to each grassroots level according to the actual situation, strengthen supervision and guidance on the implementation of the actual situation, and issue supervision and guidance reports regularly, which can effectively ensure the smooth progress of party building in colleges and universities.
